

TSD Foundation Events Volunteer Opportunities

2008 Homecoming – October 4, 2008

TSD's annual homecoming raffle is a popular favorite along the mall during the day's festivities. Volunteers can help solicit donors for raffle items, setup and work the booth selling tickets at the event.

Kars & Kids – November 1, 2008

Presented by Time Warner and News 8 Austin, this 2nd annual car show and family carnival at TSD will raise funds for the school's automotive program and help provide classroom technology and student support. Volunteers are needed for a variety of responsibilities, such as working booths and event stations, helping with setup and tear down, and assisting visitors on campus at the event. Soon, event details will be posted at: www.karsandkids.com.

2008 Student Holiday Art Display – November 22, 2008

For the second year, TSD has been invited to "deck the halls" of downtown Austin's historic Scarbrough Building at Sixth Street and Congress Avenue. In 2007, TSD's group contribution won the prestigious Barbara Jordan Media Award from the Texas Governor's Commission on People with Disabilities. "The judges were impressed by the collaboration of students, ages K-12, demonstrating incredible, career-level talent, and frankly, just great art. This motivational effort promoted a positive message while exposing the community to the history of the school and the art of American Sign Language." To top our last effort, volunteers can help seek sponsors to be a part of this community outreach exhibit as well as help with the installation, which will be on display from late November through early January.

2009 Hilton Diamond Event – Spring 2009 TBD

Looking forward to our third annual Diamond Event in partnership with Hilton Austin this Spring. A unique fundraising event that includes a silent auction and an extraordinary multiple-course, wine-paired dinner – prepared and served by TSD's Culinary Arts students. Volunteers can help with invitations, sell tickets, solicit items for the silent auction and assist at the event.
